

Financial Tear Sheet

Corporate Profile

Airgain is a leading provider of embedded antenna technologies used to enable high performance wireless networking across a broad range of home, enterprise, and industrial devices. Our innovative antenna systems open up exciting new possibilities in wireless services requiring high speed throughput, broad coverage footprint, and carrier grade quality. Our antennas are found in devices deployed in carrier, enterprise, and residential wireless networks and systems, including set top boxes, access points, routers, gateways, media adapters, digital televisions and Internet of things, or IOT, devices. Through our pedigree in the design, integration, and testing of high performance embedded antenna technology, we have become a leading provider to the residential wireless local area network, also known as WLAN or Wi-Fi, antenna market, supplying to leading carriers, Original Equipment Manufacturers, or OEMs, Original Design Manufacturers, or ODMs, and system designers who depend on us to achieve their wireless performance goals. We also develop embedded antenna technology for an expanding set of adjacent markets beyond our core home networking market, including enterprise Wi-Fi systems for on premises and cloud-based services, for small cellular applications using Long-Term Evolution, or LTE, and Digital Enhanced Cordless Telecommunications, or DECT, and high-performance designs for the in-building wireless market.
